WELCOME TO BRYAN
AT "SMOKY CITY"
GREETED BY THOUSANDS AT
PITTSBURG.

Iamense Crowds Listen to the Two
Addresses Delivered in That City
—Enthusiasm Manifested At All
Points During the Journey—Na-
tional Committee Meets.

Pittsburg, Pa., Aug. 11.—W. J. Bryan's entry of this city Monday proved to be a fitting climax of the day's triumphs. When Mr. Bryan emerged from the train, in spite of the efforts of the large local committee to carry out its program, the crowd closed around him and it was a free-for-all fight from that time on for every person in the Bryan party except Mr. and Mrs. Bryan and Mr. and Mrs. Bland. When they entered their carriages the eager throng closed around them and seemed to bear them along at its will.

Through the various streets traversed no available space could be discerned. Every foot of ground along the way was occupied by enthusiasts. When the Central hotel was reached a cordon of police was stationed at the main entrance and formed a narrow passageway leading to the staircase. No one was allowed to tread it except he could show unmistakable credentials. While Mr. and Mrs. Bryan were supping with a committee of men and women the streets resounded with the continuous clamor from the thousands of throats.

The evening meetings had been announced to occur at 8 o'clock in the Grand opera house and the Avenue theater. Each hall will seat between 2,500 and 3,000. Long before the hour for opening the doors the entire street in front of those structures was packed full along the entire block, and after the doors had been opened and the structures were filled the crowd outside had suffered little perceptible diminution. A corps of about 100 policemen was on duty at the various entrances, and in the course of the early evening there was an incipient riot, in which one person was severely beaten, and some of the officers had their brass buttons torn off.

When Mr. and Mrs. Bryan and members of their party rode around from the hotel both halls were crowded to their fullest standing-room capacity, and, it is said, half who applied had not been admitted. The crowd lingered outside in noisy disappointment, singing, cheering and burning red fire. Rain that came soon after the speaking began diminished the crowd but little, the street remaining full until the meetings closed. At the first meeting Mr. Bryan was introduced by Mr. James Miller, editor of the Pittsburg Post.

At the meeting in the Avenue theater Mr. Bryan was introduced to the audience by Joseph Holley, the chairman of the democratic county central committee, as the next president of the United States. Mr. Bryan was received with great applause.

THE JOURNEY EAST.

Mr. Bryan Makes Speeches on His Way to New York.

Monroeville, Ind., Aug. 10.—The Hon. William Jennings Bryan of Nebraska Monday made a grand stride out of the west toward the "heart of the enemy's country."

The train on the Pennsylvania road, upon which he traveled, pulled out of Chicago a little before midnight. Demonstrations were made at South Chicago and the other suburban stations, large crowds surrounding the train at the stations and attesting their presence by the use of fireworks and brass bands.

At Valparaiso, at 1:40 a. m., a crowd aggregating 1,000 was in waiting. Early dawn found the train at Columbia City, but 129 miles out of Chicago. It was but 4:45 a. m., but there were about fifty people at the depot, and Mr. Bryan came out before the train started and shook hands all around. He had come out in such a hurry that he had neglected to put on his collar.

Van Wert, Ohio, Aug. 10.—At Monroeville, the last town in Indiana, there was an enthusiastic crowd of 250 people. Dixon was the first town reached in Maj. McKinley's state. At Convey there were 200 more in waiting and when the train pulled into Van Wert, the county seat of Van Wert county at 6:55 a. m. there were 2,000 people assembled around the depot. People climbed over and under the cars with the utmost recklessness in their zeal to get near the platform. At Middletown there were about seventy men at the train who shook hands and saluted with three cheers as the train moved on.

Forest, Ohio, Aug. 10.—At Washington, Ohio, there was a momentary stop and about one hundred people extended the glad hand to Nebraska. At Dunkirk, Ohio, about five hundred people extended an uproarious welcome and a clamorous farewell. He made a short speech here.

Delphos, Ohio, Aug. 10.—Mayor Baxter of Delphos, who had boarded the train at Van Wert, introduced Mr. Bryan to 1,500 cheering men and women at Delphos at 7:15 a. m., saying that they must not ask him to speak, as he was saving his voice for New York.

Lima, Ohio, Aug. 10.—The train arrived on time and found 5,000 people waiting at the station. There was no

speaking, but the handshaking was enthusiastic, and continued during the stop of the party.

Lafayette, Ohio, Aug. 10.—This small village turned out about sixty men, who satisfied themselves by quietly shaking hands with Mr. Bryan.

Ada, Ohio, Aug. 10.—W. W. Durbin, chairman of the state committee, who had boarded the train at Lima, insisted on Mr. Bryan saying a few words at this place, where he delivered the commencement oration at the Normal University last year.

Chestline, O., Aug. 11.—Over 3,000 people were surging around the depot when the Bryan train pulled in amid the salutes from anvils and the music of a band. Mr. Bryan was greeted with cheering.

Upper Sandusky, O., Aug. 11.—Ex-Congressman Hare introduced Mr. Bryan to a crowd of 1,500 or 2,000 people here, and the candidate, as soon as he could curb the enthusiasm, spoke briefly.

Bucyrus, O., Aug. 11.—Fully 2,000 people signaled the arrival of the Bryan train with cannonading, music and hearty cheering. Mr. Bryan spoke from the car platform.

Until the train reached Pittsburg every station was the scene of demonstrations of welcome to Mr. Bryan. Wherever possible, he addressed the crowds.

DEMOCRATS MEET TODAY.

National Committee Has Many Important Subjects Before It.

New York, Aug. 11.—The democratic national committee, elected by the delegates to the Chicago convention, met in the parlor of the Fifth avenue hotel at noon to-day. Many important questions must be decided by the committee at the meeting. First it will have to select a location for national headquarters. Then the plan of campaign must be decided upon, and Chairman Jones, after consultation with party leaders from all parts of the country, will announce the membership of the executive committee, and may also appoint an advisory committee and a finance committee.

The national headquarters are expected to be located in Washington, but there will be a branch in this city. There is a possibility that the western members of the committee may carry the day for Chicago for headquarters. The programme for the notification meeting, as arranged by Mr. St. John and his people, is as follows: Elliot Danforth of this city is to be chairman; Gov. Stone of Missouri is to make the notification address. Bryan is then to respond, and the meeting will close with a few remarks from Richard P. Bland.

CHANCE OF FUSION IN IOWA.

Democratic State Convention Will Probably Result in a Union of Forces.

Ottumwa, Iowa, Aug. 11.—The advance guard of the democratic host to attend the state convention Wednesday arrived Monday. The remainder of the leaders arrived this morning with the committees from the populists and bimetallic league. These leaders of three parties meet in conference at 2 o'clock this afternoon.

There is no doubt of the completeness of the fusion. On electors it is understood that the division will be ten democrats, two populists and one from the bimetallic league. The "middle of the road" populists will be here to take part in the conference. They mean to make a fight against fusion, but it will be short lived, as 90 per cent or more of the populists are in favor of fusion, and the leaders are divided by about the same ratio.

On the state ticket the populists will probably get one man, and the democrats the rest, unless the silver men are given a representation. Gen. Weaver will be here and address the convention. The democrats will probably get everything on the state ticket, except auditor of the state, and it is said that W. H. Calhoun of Marshall county, a populist, is to be given this place. Judge Arthur Van Wagenen of Sioux City will be temporary chairman of the convention. Capt. S. B. Evans of Ottumwa is talked of for permanent chairman.

SCORES GOLD MEN.

Thinks Indiana Is for Bryan by an Unprecedented Majority.

Indianapolis, Ind., Aug. 11.—Gov. Matthews Monday expressed his opinion on the action of the gold democrats in the following language: "The democratic party of the nation held its convention last month at Chicago, and through these delegates regularly selected by the democrats of the states and territories adopted a platform and nominated a ticket. This platform is in perfect harmony with the records and traditions of the democratic party for the last twenty-five years, especially as to the financial plank.

"The movement set on foot by the quartet in this city—Bynum, Wilson, Frenzel and Pickens will cause no great alarm. They will not carry with them 2,000 votes in the state and will add to the democratic ticket three times that number. Bryan will carry Indiana by an unprecedented majority in a presidential year."

The executive committee of the new party got down to fine work Monday. Headquarters were established in the Lemcke building. Chairman Bynum of the committee announces that twenty-seven states are now enlisted in the movement, and he believes every state will be represented in the convention. It has been decided to leave all details of arrangements for taking care of the convention to the joint committee representing the Commercial club and the board of trade.

MET SUDDEN DEATH
IN FOUR STORMS
PROBABLY TWENTY LIVES
LOST IN MICHIGAN.

\$250,000 Worth of Damage Sustained
—Excessive Heat Makes Country's
Death Rate High—Great Suffering
In New York—Fourteen Cases At
Cincinnati.

Detroit, Mich., Aug. 11.—Four distinct storms visited Michigan during the twenty-four hours ended at 9 o'clock Monday night, and they carried widespread destruction of property and a large loss of life in their wake. Each one was accompanied by almost incessant and terrifying flashes of lightning and each by a hurricane. The fatalities were largest at Detroit and Benton Harbor.

In the Detroit river four people are known to have been drowned and there are no less than a half dozen missing. The yacht Corsair capsized off Belle Isle and one of the crew was drowned. Harbor Master McCrea, whose yacht was overturned by the gale, had a narrow escape from death. A boat containing three people was swamped by the high waves off Windmill point, and only one of them escaped.

At Benton Harbor four men were drowned while attempting to swim ashore, and all up along the east coast line are reports of casualties on the water, and the number of deaths will no doubt exceed twenty. The property damage by the four storms will be over \$250,000.

At Ionia the big car shops of the D. L. & N. railway were blown down and \$50,000 damage resulted. The freight house of the same company was set on fire by lightning and burned to the ground, while the roof of the big Haberstump brewery was blown off, causing a loss of \$5,000.

The reports from the various small towns through the state show great losses. Miles of telegraph wire and poles are flat, barns and farm houses have been burned and blown down and several people struck by lightning.

Rockford, Ill., Aug. 11.—A severe storm swept over this section at an early hour Monday morning doing much damage. The State Street Baptist church was struck and the steeple nearly demolished and the roofs of several houses were torn off. Many residents were knocked insensible. At Marengo Jason Marks, a school teacher, was probably fatally injured by a lightning stroke which ran along a wire clothes line. Several barns were struck in this vicinity and farmers lost much hay and many horses and cattle.

Kenosha, Wis., Aug. 11.—A severe electrical storm with heavy wind and rain passed over this city Sunday night. Previous to the storm there was a large display of shooting stars, many of which were of unusual brilliancy.

LaGrange, Ind., Aug. 11.—John Murray, city marshal of Wolcottville, this county, was struck by lightning and instantly killed Monday evening.

Portland, Ind., Aug. 11.—A terrific rainstorm, accompanied by high winds, swept over this city Monday night. The water fell in blinding sheets, converting the streets into running streams. The storm lasted only a short time, but did much damage in the way of injuring fruit trees, crops and small buildings.

SUFFERING IN NEW YORK

One Hundred Deaths Reported and Work Practically Suspended.

New York, Aug. 11.—The number of deaths caused by the heat in Greater New York is about 100, and additional victims are being reported hourly. Street-car horses have dropped in the tracks by scores. Out-of-door work has been largely suspended and many factories are temporarily closed. Sunday night was the hottest of the summer, the climax of the present torrid spell, and one of the hottest known in the city for years.

Street temperature taken in the shade Monday at a point near the center of the city was 86 at 8 a. m., rose to 97 at 11 o'clock, to 99 at 1 p. m., to 102 at 4 o'clock, and at 6 o'clock fell to 92, and further dropped to 88 at 9 p. m. Suffering has been most intense in the tenement sections.

The hospitals were obliged to call on the police department to aid them in responding to calls, as their ambulances could not cope with the number of cases reported. Many other wagons were used to carry away dead and disabled animals.

FOURTEEN CASES AT CINCINNATI.

Cincinnati, O., Aug. 11.—Thirteen persons were stricken by the heat Monday. The only fatal case was that of Gus Schmitt, who was found dead in his chair at 907 Central avenue. These fourteen cases are the only ones reported to the health and police boards. There were evidently fully as many more taken home in private conveyances. The mercury from 9 a. m. till 8 at night was in the 90s. From 1 till 5 in the afternoon it stood at 93 in the shade. The maximum heat by the weather bureau instrument was 94.

ST. LOUIS GETS A SLIGHT RELIEF.

St. Louis, Mo., Aug. 11.—There were not so many prostrations Monday as on previous days of the present hot spell, a cool wind tempering the heat, and there are prospects that cooler weather will prevail for a time. At 9 a. m. the thermometer registered 83 and but eight degrees were added to this during the day.

SPANISH STATESMEN TALK OF
WAR WITH US.

Senor Sagasta Has Forebodings Of
Such a Calamity—War Minister Is
About to Draft Troops For Cuba—
All Other Means Have Failed to
Provide Enough Soldiers.

Madrid, Aug. 11.—Senor Sagasta, the well known liberal leader, in an interview on the Spanish outlook, said that he feared, like Senor Canovas, the premier, a conflict with the United States. Senor Sagasta said he considers the government's financial plans opposed to the public's interest, but that circumstances will probably compel their adoption.

London, Aug. 11.—The Madrid correspondent of the Standard believes that the government will obtain the necessary Cuban credits from the cortes despite liberal opposition.

Madrid, Aug. 11.—Senor Marcelo de Azcarra, minister of war, is considering a scheme to introduce conscription in order to facilitate the recruiting of the forces of the Spanish army for service in Cuba.

DIES WITHOUT A COPPER.

Dr. William H. Vallette, Once a Wealthy Philadelpha Society Man.

Kansas City, Mo., Aug. 11.—Dr. William H. Vallette, formerly of Philadelphia, and who is said to have squandered within the past ten years a fortune of \$250,000 left him by his grandfather, the late Henry Vallette of Cincinnati, died here last night in a boarding house, where for several months he had been provided for by friends. He died penniless.

The deceased is said to have at one time been madly infatuated with Lillian Russell and to have begun a downward career when the actress refused longer to recognize him. He finally drifted west to Colorado, where, during the miners' riots at Bull Hill, he became a Pinkerton detective and was badly wounded after which he came to Kansas City. In his more prosperous days Dr. Vallette was prominent in Philadelphia society circles and was at one time commodore of the Quaker City yacht club.

CORN CROP IMPROVES.

Condition Has Risen 44 Points Since Last Report.

Washington, Aug. 11.—The report of the statistician of the department of agriculture for August indicates an improvement in the condition of corn over that reported last of 4.4 points, or from 72.4 to 76.8. The averages of the principal states are: Ohio, 105; Kentucky, 102; Indiana, 105; Illinois, 106; Iowa, 103; Missouri, 85; Kansas, 109; Nebraska, 108.

The condition of spring wheat has fallen since the July report from 93.3 to 78.9, a decline of 14.4 points. The conditions by states are as follows: Michigan, 83; Illinois, 83; Wisconsin, 82; Minnesota, 80; Iowa, 84; Kansas, 55; Nebraska, 77; South Dakota, 89; North Dakota, 70; Washington, 90; Oregon, 90; California, 109.

The condition of oats has fallen off since the last report 19 points, or from 96.3 to 77.3. Spring rye condition is 88, against 98.6 in July, while barley has fallen from 88.1 in July to 82.9 for August. The acreage is given as 99.5 per cent of last year's area; condition of same, 96.

Politics in Kansas.

Topeka, Kan., Aug. 11.—The silver men in the republican state convention will insist that the St. Louis platform be modified to conform to the Kansas idea on the silver question. While they are willing to accept the national declaration they want it interpreted as John J. Ingalls defined it in his speech at Lyons last week, in which he said that he interpreted the platform to mean constitutional bimetalism, the largest use of full legal tender standard silver money compatible with its parity and equality in debt-paying power with gold and with legal tender paper, redeemable as now provided by law.

Tanner Is Badly Hurt.

Chicago, Aug. 11.—John R. Tanner, republican nominee for governor of Illinois, has been campaigning for the last four days with a fractured rib. The serious nature of the injuries he received in his runaway accident last Thursday were discovered yesterday, and, as a result, the candidate for governor has been ordered to the hospital until such time as his physician may release him. All engagements made for Mr. Tanner by the state central committee have been cancelled, and the republican campaign will probably be opened without a speech from the leading candidate.

Seven Struck at Peoria.

Peoria, Ill., Aug. 11.—Seven persons were prostrated by the heat here Monday, two of whom are dead. The weather was repetition of that of the last few weeks, registering between 4 and 5 o'clock in the afternoon 96 degrees. Several of those overcome are in a critical condition and additional deaths are expected. It was an especially bad day on horses, a number dropping dead on the streets, Thede Bros. one losing three.

BASEBALL REPORT.

Standing of the Clubs Composing the Two Principal Leagues.

There were four championship games yesterday—three in the east and one in the west. The Baltimore played well and downed Washington, who played poorly. In the west, however, Pittsburg interfered with Cleveland's chances seriously by again beating Tebeau's men. Were the east playing as strongly against Baltimore as the west is against Cleveland and Cincinnati, the pennant race would be much more interesting. As matters are, the only chance there is to beat Baltimore lies in what the western clubs may be able to do against Hanlon's men when they go east. The New York club is undoubtedly playing a greatly improved game. Yesterday's scores:

BURN THE PRIEST ALIVE.

Terrible Atrocities of Mussulmans Near Heraklion in Crete.

Athens, Aug. 11.—At Anapoli Pedada, near Heraklion, in the island of Crete, Saturday, 1,000 armed Mussulmans butchered thirty unarmed Christians in the precinct of the St. John monastery. Several priests and women and children were among the victims. One woman was slaughtered for saving her children and her husband was butchered on his knees. Several churches were desecrated and a priest named Jeremiah had his ears and nose severed from his head and was then burned alive on a pyre of sacred pictures.

Fatal Wreck at Columbus, O.

Columbus, O., Aug. 11.—A passenger and freight train collided while running at a high rate of speed at the Sandusky street crossing of the Toledo & Ohio Central road Monday night. Both engines and the baggage-car are completely wrecked. Engineer Charles Vance of the freight train, whose family lives at Kenton, was crushed to death between the engine and tender. Engineer Cullison of the passenger train was seriously hurt internally and is unconscious at St. Francis hospital. William St. Clair, fireman of the passenger train, had his right leg cut off. Charles Wiatt, baggageman, was crushed between his safe and a trunk and may die. None of the passengers were seriously injured, but many of them suffered bruises and cuts. A conflict of orders is said to have caused the accident and the passenger train is said to have had the right of way.

Miners on a Strike.

Percy, Ill., Aug. 11.—The miners at Goabays and the Little Muddy coal mines went out on a strike Monday for an increase of 7 cents for mining, an advance of about 10 cents per ton. Indications are that the strike will be of long duration, as the miners are determined to remain out until the operators grant the advance or effect a compromise. The Randolph mine is also shut down, the employees being out for their wages, long past due them. The Willisville mine is still in operation, but it is thought its employees will join the strike out of sympathy.

Sun's Deadly Work at Chicago.

Chicago, Aug. 11.—Twenty-four persons died in this city Monday from the direct effects of the terrible heat. One hundred and sixty-four deaths were reported to the health department. This is the heaviest list for one day since 1877, during the smallpox epidemic. Thirty-seven were reported as dying from sunstroke, but not all of them perished. The listed prostrations were eighty-eight, making a total for the day of deaths and prostrations of 112.

Canton, Ohio, Aug. 11.—The Bryan reception committee from Pittsburg, composed of about 60 prominent democrats of that city and headed by County Chairman Howley and Morris Foster, arrived in Canton shortly before noon Monday, and finding they had nearly two hours to wait before the Bryan train arrived decided to call upon Maj. McKinley. Mr. Foster acted as spokesman for the party on arriving at the governor's residence. In response, Maj. McKinley said: "I am deeply grateful to receive this friendly visit from the Bryan reception committee. Although we are of different political belief, we are, as American citizens, proud of our country, and believe in common that we have now and will continue to have in the future the best government in the world."

FORCED THE MAYOR TO SIGN ORDERS

COUNCIL ALSO PASSED REPORT
OVER A VETO.

Assessors to Get Their Pay and the
Tax Levy Report of the Finance
Committee Is Put In Force Without
the Chief Executive's Signature—
Other Work.

Last night's meeting of the common council was a hot one in more ways than one. The aldermen: Forced Mayor Baines to sign the orders paying the assessors for their work. Passed the tax levy report of the finance committee over the mayor's veto, after a lively interchange of questions and answers. Voted to place a drinking fountain at the corner of Center and Western avenues. Instructed the sewerage committee to look into the plan of running a sewer down River street to Dodge.

Ordered the payment of \$1,509.82 to the county, the amount being due the county on license fees. Paid a number of bills; ordered street repairs; transferred William Fathers' license to H. N. Shorb; adopted grades of streets and adjourned until next Monday night.

The session was the most peppery held since the new council has been organized. Alderman Inman, McLean and Stoddard were absent. The reading of the minutes was dispensed with.

Refused to Sign Warrants.
City Clerk Badger notified the council that the mayor had refused to sign orders Nos. 5,182, 5,183, 5,184 and 5,185, although they had been reported upon favorably by the finance committee.

The reports of the municipal judge and the school board were received, referred, reported as correct, and ordered filed. Miss Minnie Matthews claim for \$23.30 damages because of the flooding of the fountain house cellar was referred to the highway committee. Further time was granted the lighting committee to investigate on a petition signed by twenty-nine residents of the First and Fifth wards, asking for an electric light at the corner of E. M. Calkins' property and Mitchell's Grove on Pleasant street. The city engineer's grade of West Milwaukee street at the corner of Pleasant was referred to the highway committee. William Fathers' license was transferred to H. N. Shorb, after the matter had been referred to the license committee. The judiciary committee reported the bond as being in due form, and the sureties good. After the report of the city engineer was referred to the highway and bridge committee, the clerk read the following communication from the mayor:

Vetoed the Tax Levy.
TO THE COMMON COUNCIL OF THE CITY OF JANESVILLE: In examining the estimates made by the council, of money to be raised by taxation for the ensuing year, I am impressed with the feeling and belief that a much larger sum is called for than the needs of the city demand.

For the year 1895 we raised for public purposes by taxation, exclusive of the ward funds, \$74,812. To that sum was added \$23,000 received for licenses, making \$97,812. It is proposed this year to raise \$65,250 by taxation, and we have received for licenses \$23,500, making a total of \$88,750, and being less than the entire amount of a year ago in the sum of \$9,062.

In the appropriation made one year ago the following items entered into the estimate: To pay outstanding notes for borrowed money, \$12,000; for bridge fund, \$2,800; for bonded debt fund, \$11,312, and for judgment fund, \$1,200, making a total of \$27,312. We also paid for the steam roller and crusher about \$4,000 from the general fund, a sum that we are not called upon to meet this year.

As against the \$31,312 of one year ago, we have notes to pay \$6,000, a bonded debt of \$5,250, and a bridge fund of \$500, and there is no judgment fund to be provided for; so that we have to raise to meet the items I have enumerated, the sum of \$11,750 as against \$31,312 a year ago, making a difference of \$19,562. From these figures it seems that we could deduct from the sum proposed to be raised this year, at least \$5,000 with perfect safety.

The appropriation for the year 1893, exclusive of ward funds, with the license money, amounted to \$77,220, and for 1894, \$76,800, as compared with \$88,750 for 1895. It will be seen that the expenses of the city have largely increased. Much of this increase cannot be avoided, but it is our duty to save to the taxpayer all possible outlay. While \$5,000 is not a large sum generally speaking, yet it is none the less an obligation resting upon us to save that or any other amount in our power, to those who have to pay taxes.

For these reasons I feel compelled to return the resolution to the council without my approval, and to enter my veto upon the passage of the same.

F. S. BAINES, Mayor.

Lively Debate Followed.

A lively debate followed the reading of the veto message. Alderman Burnham asked His Honor how much he thought the city expenses would be.

"I estimate that \$71,000, or thereabouts will be sufficient," the mayor replied "that would allow plenty of money for incidentals and the paying of the mayor's notes. I have talked with the finance committee and favored the reducing of the appropriation by \$10,000. My judgment is that it had better be done, and borrow money on thirty day notes in case we do not have enough."

40 YEARS THE STANDARD.

Last year's appropriation was large, but this year's is larger."

"Then you favor borrowing money?" Alderman Burnham asked.

"No," replied the mayor, "I think we will have money enough without borrowing."

"Are you not now advocating something that you condemned in your message as an illegal proceeding on the part of your predecessor?" asked Alderman Burnham rather pointedly. After a few more questions had been asked, Ald. Heddles called on Ald. McKey, who in turn asked to hear from City Treasurer Fathers. City Treasurer Fathers said he had made estimates, at the request of the finance committee. He did not know what the council wanted to do, or would do, he had simply complied with the request of the committee. He did not think that last year's expenditures were extravagant, and had made out his estimates as nearly right as he could.

Quoted Some Figures.
His figures showed that in the year 1894-5 the actual expenses of the general fund were \$21,572.49. The amount raised for the general fund was \$24,600. The fund was in debt July 1, 1895, \$3,027.51. In 1895-96 the cost of the general fund for the year ending June 30, 1896, was \$22,578, an average per month of \$1,880. This year the license money will be \$19,000, with the tax levy at \$10,500, less \$3,850 due for notes and the county treasurer on license leaves \$20,560, which is nearly \$2,000 less than last year, and if it were not for the roller it would have been the same as last year.

Summarized, the general fund for the three years would be as follows:
1894-5—Actual expense.....\$21,572.49
1895-6—Actual expense.....22,578.00
1896-7—Estimated.....20,560.00
Showing an actual saving contemplated by the present tax levy report, of \$1,122 over 1894, and 5 and \$1,928 over 1895 and '96.

"Did you take the cost of the roller and crusher out in that estimate?" the mayor asked.

"No sir," replied Treasurer Fathers. "I did not, because the roller and crusher bills came under the head of running expenses as they were not mentioned in the tax levy and there was no fund raised to pay for them in the levy."

Debate On The Orders.
Chairman Heddles of the finance committee moved that the mayor be instructed to sign the order to which he had refused to attach his signature.

"Gentlemen," said Mayor Baines, "I wish you would read that section of the charter before you vote on that motion. I think the bill is too large, and that it is more than the charter allows us to pay. The charter provides that the assessors shall not be occupied more than sixty-two days at \$2.50 a day. The books must be in the hands of the clerk by the second Monday in July."

Alderman Burnham said that he wanted to vote intelligently in the matter and called for a report from the finance committee on the bills.

Chairman Heddles called for a reading of the bills.
Clerk Badger produced the documents. They were the bills of Assessors Hemming and Watt, and were for \$219 each, being sixty days at \$2.50 a day, thirteen days on the board of review at \$3 a day and twelve days extra time comparing books at \$2.50 per day. There was also a bill for \$39 for City Clerk A. E. Badger for work on the board of review and one for \$36 payable to the mayor for the same work.

"They had to work overtime, or else return the books in an unfinished condition," said the clerk as he finished reading.

"And I was told that they were to put in the extra time under the head of a 'livery bill,'" said the mayor.

"I said that they had been 'to considerable expense for livery hire,'" said Clerk Badger.

"I did not so understand you" the mayor retorted.

"I said nothing about a charge that I know of," the clerk replied.

Council Had Authority to Pay.

Mayor Baines then asked City Attorney McElroy's advice.

"Do you doubt that those men put in the time that they claim," asked Alderman Burnham.

"I did not say that," replied the mayor. "I am simply going on what the charter says."

"The assessors should have asked for an extension of time, if they could not complete their work in the stated period," said City Attorney McElroy. "However the council has the authority to pay them for overtime if they think the bill is just, although no extension was asked for."

"Last year the bills were cut down to \$190," said the mayor.

"This charter was adopted in 1853, when the city had only a few thousand population," said Ald. Burnham, "and no change has been made, although we now have 13,000 population. I do not believe the people are in favor of any such injustice as this. Conditions have changed since '53. I want to ask the finance committee if it is satisfied that all the time was put in."

"We are satisfied that the claim is correct," replied Chairman Heddles. "The extra time charge is reasonable, and the committee reported unanimously in favor of paying the bills."

Multimore Had a Word to Say.

"I think there was a great deal more work to be done this year than there was last," said Alderman Multimore. "The valuation of real estate has changed, and the assessors could not make up the rolls from the old book."

"They didn't charge that much last year," said the mayor, "and I cannot

Milton, Aug. 11.—The teachers' institute began its session Monday, with a good attendance, despite the intense heat. W. P. People wonder why their nerves are so weak; why they get tired so easily; why they do not sleep naturally; why they have frequent headaches, indigestion and Nervous Dyspepsia. The explanation is simple. It is found in that impure blood feeding the nerves on refuse instead of the elements of strength and vigor. Opiate and nerve compounds simply deaden and do not cure. FORCED THE MAYOR TO SIGN ORDERS

COUNCIL ALSO PASSED REPORT OVER A VETO.

Continued from Page 2.

see why they should do so now. I do not understand it. I am not standing out against the assessors, but I want the charter complied with. I am down there for \$3 a day; I do not want it, but if the aldermen chose to pay it, it is their own look out."

"Was the money earned?" asked Alderman Burnham.

"Have not the assessors always been paid \$3 a day?" asked Alderman Kothman. "They only ask \$2.50 now."

"The only time when the pay of the assessors was cut down was when the mayor was chairman of the finance committee," said Alderman Heddles. "I think these men earned their money. The city attorney says we can pay this bill, and the action will be legal. I call for my motion."

The motion was then put, all the aldermen voting "aye."

The Veto Is Upset.

Chairman Heddles, of the finance committee, reported in favor of paying a number of bills, and the report was adopted. He then introduced the following resolution:

WHEREAS, The finance committee have had the tax levy under consideration; and

WHEREAS, The common council at its last meeting unanimously adopted the same; therefore

RESOLVED, That the levy as made and adopted by the common council be and the same is hereby approved.

The resolution was adopted, all voting "aye."

Alderman McKey from the fire and water committee, reported favorably on the placing of a drinking fountain at the intersection of Center and Western avenues, and that the chief engineer and fire and water committee put in the same. Adopted.

On motion of Alderman Milmore, from the highway and bridge committee, the grade of Hyland street, also Main and Sharon streets be adopted as per the profile filed by the city engineer. Adopted. He also reported on the petition to change the name of Carrington and East Oak streets to Willard street, that if it is changed at all that it be to Carrington street all the way through.

The Matter of Sewerage.

Ald. Burnham, from the sewerage committee, stated that he had with the health officer visited the race opposite from the west side fire station. Four or five sewers emptied into the race, one from the city building. The race is private property and the parties who have been running their sewerage into it had no more right there than they had to go onto a man's lot. But it had been done for years and the city was a party. Owners of the race had been compelled to clean it out at their own expense. It was not right. There were two remedies for it, either stop up the sewers or make a connection with the sewer leading to the river on Dodge street. He did not think the city ought to pay the whole cost of such a sewer. He thought the other owners of the sewers emptying into the race should help bear the expense. He did not see why the owners of the race did not make a complaint against the city instead of the city making a complaint. He thought the most feasible plan was to connect with the Dodge street sewer.

Committee To Investigate.

Alderman Burnham stated further that all the surface water on both sides of West Milwaukee street emptied into the race and formed a bank. He moved that the committee on sewers be instructed to ascertain the cost of a sewer connection with the Dodge street sewer and catch basins on each side of Milwaukee street and confer with the owners of sewers that empty into the race, and see what expense they will be willing to stand. As it was now it was a nuisance. The motion was adopted.

The following orders were adopted.

By Alderman McKey—For a fifteen-inch tile across Division street on the south side of South First street, also a plank crosswalk across the alley on Carrington street between lots O. and K; also for gutter on Eastern ave. near McKey boulevard; also providing for the building of new sidewalks on Carrington street and Prairie avenue; also build a block crosswalk across Walker street, at the east side of Prairie avenue.

NATURAL FAT.

GETTING FAT IS ONLY A QUESTION OF EATING PROPER FOOD.

Thin people who want to get fat should eat proper food and digest it. That is the only natural way.

The trouble with most thin people is that they suffer from indigestion.

The don't digest their food. They don't get enough nourishment. They are slowly being starved. They are poisoned by the products of fermented and putrid food.

Shaker Digestive Cordial, a gentle, natural, vegetable digestive, attacks the food in your stomach just like the digestive juices, and turns it into healthful nourishment. It helps your stomach naturally. It makes thin dyspeptics fat. It makes poisonous blood pure. It tones up and cures the stomach.

Nothing will cure indigestion like Shaker Digestive Cordial, because nothing else goes so naturally about it.

This is why it has been so successful in relieving nausea, vomiting, dizziness, weakness, bad taste, fever, flatulence, constipation, loss of appetite, headache, neuralgia, rheumatism, etc., by curing the disorder which causes the symptoms.

A few doses will prove its value, but you won't get fat on one bottle.

All druggists. Ten cents for a trial bottle.

A dude, having been brought

up on terra firma, made up what he called his mind to be a yachtsman bold. So he bought a cutter and one calm morning started to sail. He hoisted his jib only. "Why in the name of lobscourse don't you pile on more canvas?" called a weatherbeaten tar from another boat. "Because," replied the amateur, "there is not wind enough to fill the sail I have set now." The advertiser who will not proclaim himself to the public when times are dull will probably see the moral of the anecdote.

New Move of Gold Men.

Chicago, Aug. 11.—About a dozen business men met here Monday and organized "The American Honest-Money league." About 115 of Chicago's most prominent business men are on the rolls of the new league. They are republicans and democrats, the respective strength of these two parties being about 60 and 40 per cent. For this reason the league will be non-partisan. "Money" will be the sole issue. Concerning the work which the league would take up Mr. Smith was not able to speak in detail, but said: "The American Honest-Money league has been organized to meet a desire of many business and professional men, irrespective of party affiliations, to take some active part in the campaign to maintain our present and long-established standard of value."

Illinois Populist Convention.

Springfield, Ill., Aug. 11.—Only a few of the delegates to the populist state convention arrived in the city. So far it looks as if the convention would be, as they express it, a "free for all," and that the result will be the work of the delegates, and not of the wire-pullers. As to the question of fusion with the democrats they express themselves only to the extent that the bolters of the party will support the ticket that the convention shall put up, and that such an arrangement can be made as will give them such representation upon the ticket as shall be satisfactory.

Gov. Altgeld will be acceptable to them, and if he should be nominated it is asserted that he would poll the full vote of the party. They will not say anything about any arrangement or plan to have the democrats endorse any special candidate, but talk conservatively.

Sewall Reaches New York.

New York, Aug. 11.—Arthur S. Sewall, the democratic candidate for vice-president, arrived in this city Monday in order to appear on Wednesday at Madison Square garden to receive the official notification of his nomination. In talking of his native state Mr. Sewall admitted that it was such a republican stronghold that it would be little short of a miracle if he carried it. He said he was hopeful of the results of the coming campaign, although it was a little too early to make predictions.

POINTED TOES MUST GO.

No More Toothpicks In Shoe Leather Now Says Fashion's Decree.

The pointed toe shoe is going out of style. Such is the decree of fashion, and when fashion dictates few men or women dispute the decree, says the New York Journal.

Hence the passing of the "toothpick" point is a fact that is just forcing itself on manufacturers and dealers. Some of the leading shoe dealers of New York, confirmed the statement that in its place is appearing the more comfortable round-toed style of footwear.

The exodus of the "toothpick" marks an epoch in the history of footwear. The ultra-fashionable youth will have no trouble in standing squarely upon their own feet, instead of bearing down upon their neighbors' pedal extremities with the useless projection of the old-style shoe. There have been many styles of shoes worn by different styles of men, but the pointed toe maintained its supremacy longer than any of them. But, like all else, it has had to give way to the dictates of Dame Fashion and fall styles show a wider range of round and square toed shoes than has been in stock for many a long day, while there is less variety of pointed-toed shoes seen than ever before.

The representative of one shoe company said: "In the future pointed shoes may be worth more or less for evening wear, but they will eventually become out of date for the reason that they are more apt to break around the tips and the dealers are accused of selling an inferior article. The shoe that is coming in the place of the pointed shoe is one that is known as the 'bulldog,' which has a raised, round, blunt toe. The reason for calling the shoe 'bulldog' is because of the shape of the toe, which is something like a dog's head in form. This will be the fashionable shoe this fall."

The fine city trade of the east and public opinion in general have set decidedly against the needle-pointed shoe and the "coin" and "bulldog" shaped lasts now have the preference. The A. Richardson Shoe Co. are showing samples of the bull dog shoes.

500 WENT TO LAKE KEGONSA

A Big Crowd Took in the Excursion This Morning

A crowd estimated at between four and five hundred people left the city today, to spend the day at Lake Kegonsa. The event was the joint picnic given by the Court Street and the First M. E. churches, and a happier and more sociable assemblage it would be hard to find. A special train consisting of eight coaches and a baggage car, left the St. Paul depot at 8:15 a. m., in charge of Conductor Harry Vedder, of Milwaukee, and everything to add comfort for the passengers, had been done by the company. At Edgerton and Stoughton extra coaches were attached, and had it not been for the threatening clouds of the early morning, a much larger crowd would have attended from this city. The Y. M. C. A. band accompanied the delegation, and furnished excellent music.

STREET CAR JUMPS THE TRACK

Some One Wedged a Stone Between the Rails, Causing an Accident.

About 10 o'clock last evening, as the Forest Park car was rounding the curve at the corner of Milwaukee avenue and Jackson street, it suddenly struck a stone, and before Motorman Albert Reeder could put on the brakes, the car jumped the track. Upon examination it was found that some person had wedged a stone between the tracks, which caused the accident. No one was injured, but the car spent the day in the shops.

HER HAPPY DAY.

A CHARMING STORY OF MEDICINE AND MARRIAGE.

Two Open Letters From a Chicago Girl—
—Ho, Happiness Came to Her.

Among the tens of thousands of women who apply to Mrs. Pinkham for advice and are cured, are many who wish the facts in their cases made public, but do not give permission to publish their names for reasons as obvious as in the following, and no name is ever published without the writer's authority; this is a bond of faith which Mrs. Pinkham has never broken.

Chicago, Jan. 5th, '95.
My dear Mrs. Pinkham—
A friend of mine, Mrs. Pinkham, wants me to write you, because she says: "you did her so much good."

I am desperate. Am nineteen years of age, tall, and weighed 135 pounds a year ago. I am now mere skeleton. From your little book I think my trouble is profuse menstruation. My symptoms are

Our doctor (my uncle) tells father that I am in consumption, and wants to take me to Florida. Please help me! Tell me what to do, and tell me quickly. I am engaged to be married in September. Shall I live to see the day?

LUCY E. W.

Chicago, June 16th, '95.
My dear Mrs. Pinkham—
This is a happy day. I am well and gaining weight daily, but shall continue the treatment and Vegetable Compound during the summer, as you suggest. Uncle knows nothing about what you have done for me, because it would make things very unpleasant in the family. I would like to give you a testimonial to publish, but father would not allow it. I shall be married in September, and as we go to Boston, will call upon you. How can I prove my gratitude?

LUCY E. W.

Just such cases as the above leak out in women's circles, and that is why the confidence of the women of America is bestowed upon Mrs. Pinkham.

Why are not physicians more candid with women when suffering from such ailments?

Women want the truth, and if they cannot get it from their doctor, will seek it elsewhere.

MAYOR AND ORGAN ARE NOW AT OUTS

THE RECORDER IS UNFAIR TO MR. BAINES.

Attack Him and the Council For Doing What That Paper Always Advocated—Protest Only Calls Out An Invitation "To Go To"—Real Democrats Are Disgusted.

The breach between Mayor Baines and The Recorder is said to be growing wider, and there is but scant probability that the chasm can be bridged. The Recorder's attack upon the council and the mayor in regard to the hiring of the experts to look into the cost of the water works plant is said to be the cause of this coolness. The mayor is said to have called at The Recorder office after this article was published, to protest against the injustice that was done to all concerned, in this article. The answer he got, according to The Gazette's informant, was that if the "coat fit, he could put it on," together with the statement that there were hotter places than this town, and that there was nothing to prevent His Honor from visiting them. In fact, the mayor was pointedly advised to seek such a place, and hibernate therein.

Mayor's Friends Angry.

None of this was pleasing to either Mayor Baines or his friends. They claim that party considerations should insure the mayor fair treatment, at least, but that he had not been accorded anything of the kind. The Recorder's stand on the water works investigation, they charge, is not consistent. The paper was violent in the demands that the suit be begun, and said, during the mayoralty campaign two years ago, that "whoever the candidate was, he must declare himself, and good and strong, on the water works question." At no time, however, have they commended the action of Alderman Burnham or Alderman Winslow, who were opposed to the bringing of the suit. Neither did the commend the action of Aldermen Burnham, Winslow and Inman in opposing the hiring of experts.

Declares Its Own Nest Foul.

In short The Recorder refuses to sleep in the bed it made for itself, and declares the couch of its own selection to be too foul for occupancy. It attacks Mayor Baines and the council for doing the very thing it was so energetic in advocating but a short time ago. Friends of Mayor Baines claim that such tactics on the part of the party organ are unjust and unfair. Mayor Baines is but human as are the members of the council. That both chief executive and aldermen make mistakes must be granted. That a newspaper must make mistakes is also a fact that cannot be denied. But for the Recorder to turn its coat; eat its own words; and endeavor to climb out of the slime by mounting the shoulders of the men who have followed the course that the paper advocated, lacks every element of justice, decency or honesty.

The Gazette has no ax to grind in this matter and stands in the position it took when the matter first became an issue, but likes to see fair play, even among "our friends the enemy."

Went Back On Friends.

On national, as on local issues, The Recorder's position is also criticised.

"Jamesville now has no democratic paper."

Such was the declaration made by a prominent member of the local democracy last night.

"The Recorder," he continued, "used to be democratic, but now it is popocratic. They swallowed free silver, which they believe and know to be wrong on both principle and practice, and they repudiated the man who befriended them—President Cleveland—to get onto the band wagon of Bryan, the blatherskite; Altgeld, the anarchist, and Tillman, the boor. I am disgusted. There is nothing democratic about those men, and the disgraceful platform that the Recorder now upholds. They denounced free silver before the convention, in unmistakable terms—now they endorse it. They endorsed the action of the council in suing the Water Company before such action was taken—now they denounce it. The paper should not have, and I do not believe that it does have, any influence in either case."

FARM SOLD TO SETTLE CLAIMS.

The Patrick Skelly farm, in the town of Rock, was sold this morning by Sheriff Appleby to the highest bidder.

The sale took place in front of the Post Office, and the farm, which consisted of seventy-six acres, was bid in by one of the heirs for the sum of \$1,000. The estate was owned by a number of heirs, and in order to satisfy their claims it was sold.

Particular About Style.
Mrs. Prim (stylish boarding-house keeper)—It cannot be delayed any longer. We must have a new set of dishes.
Daughter—Yes, ma, the old set was very handsome in its day, but it's all out of fashion now.
"Well, my dear, go to Brickabrack & Co.'s and select a new dinner service; take nothing but Royal Windsor china or Dresden ware, no matter what the cost."

"Why don't you sue him for breach of promise?"

Way Stations for Laughter.
Fair woman faints away no more,
Nor essays the pathetic.
She's not the shrinking thing of yore—
She goes in for athletics.
A full, free stride that's almost bold
Succeeds the high-heel wriggle;
But in one way she's as of old—
She has the same old giggle.
—Indianapolis Journal.

The Time to Worry.
Little Mrs. Neuwed (between sobs)—Tom and I had a quarrel last night and he went out and got intoxicated and—

A Meeting and a Parting.
Edith—Don't you think you wear your bicycle skirt just a little too short?
Bertha—I do not, my dear, but the longer you wear yours the better figure you cut.
Then they parted with their noses in the air, and they both look the other way when they pass on their wheels.—Detroit Free Press.

Reliable Remedy.
"Tom, a word with you."
"Be quick, then; I'm in a hurry."
"What did you give your sick horse to-day?"
"A pint of turpentine."
John hurries home and administers the same dose to a favorite charger, which, strange to say, dies in half an hour. His opinion of Tom's veterinary ability is somewhat staggered. He meets him the next day.

"Well, Tom, I gave my horse a pint of turpentine and it killed him."
"So it did mine."—Tit-Bits.

A "Junk-Shop,"
A "Blacksmith,"
"Two-Cent Apple Butter"
"Rotten Stock" and
A "Hunchback,"

is a poor combination from which to expect a production of anything respectable in the job printing line.

A "junk shop" means a worn-out assortment of type, rules, etc.; a "blacksmith" is a bunglesome printer; "two-cent apple butter" is synonymous of the poorest quality of printing ink; "rotten stock" is poor-made and cheap paper; and a "hunchback" is a press which is so old that it has naturally worn out of shape and usage.

We Take a Pride

in our job printing equipment, our skill and our materials; that's the reason why we do such splendid work.

BRIDAL FASHIONS.

tin of Different Shades of Whiteness For
Blond and Brunette.

The gown of most fashionable brides is
of satin duchesse, snow white for
blond, milk white for fair, robust
women, cream or ivory white for brunettes
and those who fear to appear large. The silk
lining, which should extend throughout,
should be of good quality—in case of a
healthy woman, because the effect is bet-
ter; in case of a moderately circumstanced
one, because the gown better endures

WEDDING GOWN.

cleaning, dyeing and similar rejuvenation
to which the wedding dress of a poor
woman too often has to submit.

The style varies according to the figure
and the taste as far as the bodice is con-
cerned, but for the skirt—that is always
long and usually plain. There is a great
liking for a princess back, and this effect
is always graceful. The closing of the
gown is concealed under the trimming of
the corsage, the skirt fastening at the side,
never down the middle of the front, as that
gives the look of a wrapper.

The length of the train depends upon
the figure of the wearer and the sort of
goods employed. One and one-half yards is
almost the extreme length, nothing but
the utmost pomp and circumstance, like
that of royalty, justifying a greater extent
of superfluous material.

The train is kept in shape more by the
quality of the goods and the lining than
by stiff interlining. Nevertheless an inter-
lining of very light haircloth may be em-
ployed, extending through the entire train
and for 12 or 18 inches up the skirt itself.
The inside of the train should have a frill
8 or 10 inches wide, quite full and cut
crossways of the silk.

Mousseline de soie, plain, plaited or
embroidered, is frequently employed as a
trimming for wedding gowns. The skirt
is generally plain, unless it is adorned
with fine lace, which is not cut, but is
draped here and there with bows or clus-
ters of orange blossoms.

The wedding gown illustrated is of satin
duchesse. The skirt has a long, round
train, and is trimmed around the foot
with three narrow ruffles of white silk
gauze. Ribbons of white satin, terminat-
ing under bows and bunches of orange
flowers, are carried diagonally across the
left side. The bodice is full in front,
trimmed with gauze ruffles and traversed
by two ribbons. The belt is of white satin,
the draped sleeves of satin duchesse, the
sleeve frills and collar of gauze.

FASHIONABLE FANCIES.

**Delicate and Fragile Sunshades—Beautiful
Bodices For Black Silk Skirts.**

Parasols of flowered material or embroide-
red in floral patterns, or adorned with
trails and fringes of artificial flowers, are
much seen, and are very pretty, although
the latter are fragile. Silk and cambric
flowers are often almost as beautiful as
natural ones, but they are also almost as
short lived. They are, properly speaking,
a far more expensive luxury than they
seem, for they require to be constantly re-
newed. Who has not seen that most dis-
mal of sights—an evening gown trimmed
with flowers that once deserved the name,
but have lost their pristine freshness and
hang mere limp rags of cambric or frayed
silk, a disfigurement instead of an adorn-
ment?

The convenience and becomingness of
the separate waist are so universally ap-
preciated that women will not easily give
it up, and it is still not only generally
worn, but fashionable. A plain but per-
fectly made skirt of black satin, brocade or
other silk material is one of the most use-
ful articles in a woman's wardrobe now.
With it she wears a variety of colored

DUST CLOAK.

bodices of silk, crepe de chine and other
materials. These bodices may be made of
remnant lengths, as five yards are usually
sufficient for one.

Directoire belts are much worn, especial-
ly for evening dresses. Some of them are
composed almost entirely of jewels, are
fitted to the figure, and are often curved
under the bust as were those that our
great-grandmothers wore with their mus-
lin slips.

Many gowns of light goods have the
skirt mounted by three or four rows of
gathers.

Today's sketch illustrates a dust cloak
of light gray wool or taffeta. It is held in
at the waist by a belt of satin ribbon, hav-
ing long ends and loops in front and two
short coques at the back. A basque of lace
follows the belt all around. A pelerine
covers the shoulders, and is edged with
two ruffles of lace. The sleeves are of
brocade silk, the neck ruche of plaited silk
gauze tied with satin ribbons. The accom-
panying hat is of bright red straw trimmed
with choux of white satin and black quills.

The big, hearty,
healthy man is a con-
tinual irritant to his
dyspeptic friend.
Constipation is the
root of nine-tenths
of the sickness of
men, and of a large
proportion of the
sickness of women.
It can be cured easily,
naturally and quick-
ly. Nature is contin-
ually working as hard
as she can to throw off
impurities, and to
force out poisonous
refuse matter. When
there is an impediment,
Dr. Pierce's Pleas-
ant Pellets set the wheels working again
without any trouble. They assist nature in
a gentle, healthful, efficient way. There is
nothing violent about their action, and yet
it is just as certain as if it were twice as
violent. "You do not become a slave to
their use." They are different and better
than any other pill for the cure of consti-
pation, headache and kindred derange-
ments. Almost all druggists understand
this, and are conscientious enough to tell
you so. The druggist who tries to sell you
a substitute is not a safe man from whom
to buy medicine.
